

12 Gauge

Kalmah

Lairs doctors, the tools of evil
Give the recipes that will heal the sadness
Inside the pill can the saviour is waiting
Swallow the sweet taste of madness
Hallucination takes you down into the deepest swamp
The combination, an everlasting, final tramp
Without any doubts tomorrows need is more and more
Hear him calling and he will tear you down
Just take a pull and start the dreaming
Insidious session, Messiah is still bleeding
Chemical feelings that everything is going will
Hallucination takes you down into the deepest swamp
The combination, an everlasting, final tramp
Without any doubts tomorrows need is more and more
And soon the day will come black, black
Makes you feel that you are a scumbag
Standing deep in the same dead end
The only friend that you have 12 gauge
Hallucination takes you down into the deepest swamp
The combination, an everlasting, final tramp
Without any doubts tomorrows need is more and more
And soon the day will come black, black
Makes you feel that you are a scumbag
Standing deep in the same dead end
The only friend that you have 12 gauge
