

# All Perception Is Wrong

## Anubis Spire

ALL PERCEPTION IS WRONG

Hard to see the chains you're buying  
When they hide the flag they're flying  
It's so easy to control you  
Blinded by greed

Watch the stories that they tell you  
All the lies they try to sell you  
Just ignore slow motion murder  
On your TV

All perception is wrong  
Lies, we've known all along  
Somewhere down that road  
Truth must be told

Try to look beyond your mirror  
Maybe then it will be clearer  
Why they need a superficial  
Self centered fool

Waste your life with useless fashion  
They keep you high to keep you passive  
Ignorance is bliss  
You're just so easy to rule

All perception is wrong  
Lies, we've known all along

Somewhere down that road  
Truth must be told

(Spoken):

There is no reality except perception  
There is no perception except interpretation  
Therefore to manipulate interpretation  
is to control reality

Hard to see the grave you're buying

When all that you believed lays dying  
Never guessed who pulled your strings  
You've got no clue

Better learn to see the power  
Hidden in their Ivory tower  
They're the ones who take the profit  
From all that you do

All perception is wrong  
Lies, we've known all along  
Somewhere down that road  
Truth will be told
