

A Rat Like Me

Motley Crue

Can you smell sarcasm
On my breath?
Im a new age puppet strung
Out on death A rat like me wont save the world
A freak like me
A rat like me wont save your world
Going down and killin time
Down, down, down I do the dance of the cursed
Everyday
Theres nobody worse
Nowhere no way A rat like me wont save this world
A shit like me
A rat like me wont save the world
Going down one step away
Down, down, down Everybodys bangin on this landmine
Everybodys sippin on their pain
I am not alone in my head here
But Ill gladly take the blame Im a snot nosed
Nuclear sonic punk A rat like me wont save the world
A man like me, a dog like me wont save
A worm like me wont save
A rat like me wont save the world
Going down and killin time
Down, down, down A rat like me, a dog like me
A worm like me, a freak like me
Rat, dog, worm, freak
