

# Relationship Goals

## Tank

Close to my phone, you can have them  
All of them hoes, we don't have it babe  
You the only one, that have all my back  
If I was on the run, you could be my ???, baby I'ma be a star, a tongue from the wisdom  
I'ma beat it up, till you scream for another round  
I've been working out baby, feel on this power  
Girl when you're alone, let me hear you moan, louder This could be us, yeah  
If you let me own it  
This could be us  
If you let a real nigga win for you  
This could be us  
If I run it with you  
This could be us  
I'm with anything you wanna do  
This could be us, this could be us  
It could be us, this could be us  
It could be us, this could be, this could be  
This could be us, oh yeah, yeah Home late night calls, I might answer back  
I'm gonna break you off, sledgehammer, babe  
What happened to that talk  
We were talking, baby  
Bout me in your face, I want that action, babe I'ma be a star, a tongue from the wisdom  
I'ma beat it up, till you scream for another round  
I've been working out baby, feel on this power  
Girl when you're alone, let me hear you moan, louder This could be us, yeah  
If you let me own it  
This could be us  
If you let a real nigga win for you  
This could be us  
If I run it with you  
This could be us  
I'm with anything you wanna do  
This could be us, this could be us  
It could be us, this could be us  
It could be us, this could be, this could be  
This could be us, oh yeah, yeah I'ma find love in the killer  
I'ma hold you down, girl it ain't nothing thriller  
And I'm the motherfucker man  
If you anybody be with the motherfucking man

Get up, I'ma take care of the bills  
You forgot to stick em up with the toaster  
I'ma take care of the thrill  
I promise rollercoaster I'ma be a star, a tongue from the wisdom  
I'ma beat it up, till you scream for another round  
I've been working out baby, feel on this power  
Girl when you're alone, let me hear you moan, louder This could be us, yeah  
If you let me own it  
This could be us  
If you let a real nigga win for you  
This could be us  
If I run it with you  
This could be us  
I'm with anything you wanna do  
This could be us, this could be us  
It could be us, this could be us  
It could be us, this could be, this could be  
This could be us, oh yeah, yeah
