

# Monster Side

## Addict

I am young, but a fool  
I am stupid but I'm cool  
I am kind, but I'm weak  
I can turn the other cheek  
All I wanted was to find a friend again, again I just can't hide my monster side  
My monster side  
I can't control the loss I feel  
The loss I feel If I had another chance  
I would peacefully advance  
But as I'm fated to be here  
Resigned and ridden by my fear  
I should love myself but  
My vanity love's someone else I just can't hide my monster side  
My monster side  
I can't control the loss I feel  
The loss I feel I am the best there is  
Until all there is, is hot air  
Unfulfilled I take it out on you  
Because you care  
And because I love you  
I expect you to be there I just can't hide my monster side  
My monster side  
I can't control the loss I feel  
The loss I feel I can't abide my monster side  
My monster side  
But it's an animal I just can't ride  
I just can't ride
