# Far and Away

## Urban Knights

Across the long last great divine
The distant longing never dies
And all the pain, of a dream that was never known
Never fades, no, no
That's alright, someday I'll find you
I tell myself most every night.
You seem so far and away
Another life, another time and place
Oh, oh, if only I could find you
So far and away
There's something lost I never will replace
It seems so far away
Love I'll never come to see
And though I try, can't let it be
My body aches for the longing only grows, everyday
I only bleed when I'm all alone
The same time here and there tomorrow

But to me that's just a lie
You seem so far and away
Another life, another time and place
Oh, oh, if only I could find you
So far and away
I'm waiting on a miracle, today
It seems so far away
So if you hear this last refrain
I hope you know that I still wait
I can't let go, all I need is a miracle
Yea today, all I need is a miracle
Oh, oh, oh, oh
It seems so far and away
Another life, another time and place
Oh, oh, I hope these words will find you
So far and away
There's something lost I never will replace
No oh, I'm begging for a miracle today
