Forevers Horizon

Integrity

empowered by the duality
memories abruptly fade
slipped behind salvation`s dress
time expires at half speed
aiding in the destruction
blind to your dreams intensity
while your existence, ceases to exist
it`s too late to believe
into oblivion`s arms
all desires dissipate
forevers horizon pulling me in
this wasn`t supposed to be the way
i was never good enough for your society
and you never let me forget your contempt for my kind
everyday you tried to keep me down
but now you`ve changed and want to start coming around
past won`t be forgotten.
