

Low Budget Life

The Low Budgets

I work all the time but I hardly get paid
I'm always gettin' screwed but I never get laid
This is the saga of my sorrow and strife
Let me bore you with the details of my low budget life

I ate some bad meat and now I feel pretty ill
But my doctor won't see me 'cause I can't pay his bill
Should've listened to my parents should've stayed in school
but I wanted to be in a rock band 'cause I thought that would be cool

Low budget life
Low budget life
This is the story of my low budget life

All my money's been spent
I can't pay my rent
This time next week I'll be living in a tent

I owe Uncle Sam
I owe my ex-wife
Let me bore with the details of my low budget life

I spent my last dollars on the lottery
but when they call out my number I'm gonna buy a big screen tv
Until then I'll be living on corned beef hash
and whatever leftovers I can find in the trash
Where's my Mrs. Dash?

Low budget life
Low budget life
This is the story of my low budget life

All my money's been spent
I can't pay my rent
This time next week I'll be living in a tent

People keep calling me up telling me how much they're owed
but I can't get to work 'cause my car just got towed

It's my low budget life
my low budget life
my low budget life

my low budget life
low budget life
low budget life
low budget life
