

# Love Song

**Doro Pesch**

Okay Dreams of Xanadu  
Like a rainbow in the sky  
I wil lead you to heaven  
Close your eyes just let me try You will listen to my voice  
You will listen to my whisper Sweet emotions fill my love song  
And it's only for you  
It's only for you Every song I sing  
Is a love song for you ! This song I sing  
Is a love song for you ! A love song for you How I cherish your touch  
Believe in you so much  
You're my island in the setting sun  
And the waves just drift along How I feel for you  
I cannot forget you It's not hard to understand me  
The way I show my love
