

# Coffee & Cigarettes

## American Aquarium

You're a cold cup of coffee and a cigarette  
You're a favorite line I won't forget  
You're everything I'm asking for  
You're everything my heart desires I've been lonely  
Since the day I was born  
And I've got nothing to show  
But these scars and broken bones So take me high as you can  
Take me high as you can  
And I'll let you be my darlin'  
If you let me be your man  
You're a double shot of bourbon on the rocks  
With just a splash of ginger  
You're a methamphetamine midnight  
That never ends You're everything that's bad  
That feels so goddamn good  
And you'd know i'd change my ways  
Baby if I could So take me high as you can  
Take me high as you can  
And I'll let you be my darlin'  
If you let me be your man  
So take me high as you can  
Take me high as you can  
And I'll let you be my darlin'  
If you let me be your man You're a cold cup of coffee and a cigarette  
You're a favorite line I won't forget
