

# Smear Campaign

## Annihilator

Cut me down to make me bleed  
Underground to fill your need  
Propaganda your personal war  
Your evil slander hard to ignore[Chorus:]  
Preach your hatred fill the world with lies  
Feels so good for you to victimize  
Fantasize you're a shooting star  
Hide away like the coward you are  
Defamation a smear campaign  
Restitution, never blacken my name[Chorus:]  
Preach your hatred fill the world with lies  
Feels so good for you to victimize  
Try your best to break me can't you see  
You will never suck the life from me[Solo through]  
Demonize jeopardize  
Spreading your disease  
So glad you've had your fun  
Making up your stories spewing them with ease  
But now your time is done  
Can't look in my eyes  
You won't apologize  
Judge you should not  
But now I hope you rot Sad, weak and insecure  
Your life is just a fail  
Bitterness and jealousy  
Fabricate now too late,  
The coffin and the nail  
It's time for remedy [D»DµD°D°Ñ€Ñ•Ñ, D²D¾]  
Can't look in my eyes  
You won't apologize  
Judge you should not  
But now I hope you rot. Rot Words can kill (kill). Never thought about that  
Confrontation. You run, run like a rat  
Man up, it's time to testify  
Stand up. It's time to say good-bye[Chorus:]  
Preach your hatred fill the world with lies  
Feels so good for you to victimize  
Try your best to break me can't you see  
You will never suck the life from me
