

Runnin' Outta Moonlight

Randy Houser

Don't you worry 'bout gettin' fixed up
When you wake up, you're pretty enough
Look out your window at the cloud of dust
That's my headlights, that's my truck
Come on baby, don't you keep me waitin'
I gotta go, I've got a reservation
Tailgate for two underneath the stars
Kiss on your lips when you're in my arms
Whoa
Girl, every now and then you get a night like this
Whoa
This is one that we don't wanna miss, no
Come on baby let me take you on a night ride
Windows down, sittin' on my side
Tick tock now we're knocking on midnight
Me and you girl runnin' outta moonlight
I wanna hold you till the break of dawn
Hear the crickets sing a riverside love song
Hey baby, all we got is all night
Come on now we're runnin' outta moonlight
Girl I bet you thought I lost my mind
Outta the blue pulling into your drive
Wonder why I got you way out here
Have you ever seen a sky this clear
Whoa
Girl, you never look better than you do right now
Whoa
Oh heaven, let your light shine down
Come on baby let me take you on a night ride
Windows down, sittin' on my side
Tick tock now we're knocking on midnight
Me and you girl runnin' outta moonlight
I wanna hold you till the break of dawn
Hear the crickets sing a riverside love song
Hey baby, all we got is all night
Come on now we're runnin' outta moonlight
Whoa
Girl, every now and then you get a night like this
Whoa
This is one that we don't wanna miss, no
Come on baby let me take you on a night ride
Windows down, sittin' on my side
Tick tock now we're knocking on midnight
Me and you girl runnin' outta moonlight
I wanna hold you till the break of dawn
Hear the crickets sing a riverside love song
Hey baby, all we got is all night

Come on now we're runnin' outta moonlightHey baby don't it feel so right
Come on now we're runnin' outta moonlight
All I wanna do is hold you tight
Come on, come on, come on we're runnin' outta moonlightWhoa
Yea we're runnin' outta moonlight
Whoa
