

Bad Case Of The Blues

Dusty Springfield

Such a bad case of the blues I thought that you would be
A little different when it came to lovin' me
Now, I see I was living a dream
'Cause all I do is cry and kiss your love goodbye Got a bad case of the blues
It's what I get from lovin' you
Such a bad case of the blues
It's what I get from lovin' you I thought that I would never see
How it feels to live a life of misery
I don't have anything to look forward to
But miss the love I've lost and pay the loser's cost Got a bad case of the blues
It's what I get from lovin' you
Such a bad case of the blues
It's what I get from lovin' you Now all I do is cry
And kiss your love goodbye, hey Got a bad case of the blues
It's what I get from lovin' you, babe
Such a bad case of the blues
It's what I get from lovin' you Got a bad case of the blues
It's what I get from lovin' you
Such a bad case of the blues
It's what I get from lovin' you, yeah Got a bad case of the blues
It's what I get from lovin' you, babe
Such a bad case of the blues
It's what I get from lovin' you
