

She

Tenpenny Joke

Saw her sitting on the corner
With her feet down in the water
And no one ever helped her
And no one ever taught her
For such a lovely daughter
Couldn't be more lost in water
With no one to believe in
She will get inside your head
She's the waves inside your bed
She will get inside your head
She's the waves inside your bed
Saw her sitting on the corner
In her masquerade
Saw her sitting on the corner
Black ran down her face
Saw her sitting on the corner
With her feet down in the water
And no one ever helped her
And no one ever taught her
For such a lovely daughter
Couldn't be more lost in water
With no one to believe in
She will get inside your head
Like the wolf travels through the snow
She's the waves inside your bed
Where the wind travels she must follow
She will get inside your head
Like the wolf travels through the snow
She's the waves inside your bed
Where the wind travels she must follow
It's so much so much so much darker in the sun
when you when you when you run
It's so much so much so much darker in the sun
when you when you when you run
She will get inside your head
Just like the wolf travels through the snow
She's the waves inside your bed
Where the wind travels she must follow
