

Butterfly

Julia Fordham

I'm like a butterfly
Pushing against the wind
You're like a magnet
Pulling me back inNo matter how I try
 No matter what I do
 I keep coming back to you
Mercy mercy pleaseYou've got to release me
 How this fatal twist of alchemy
 Brings me to my kneesDanger dangerous
 What will become of us?
 Strained addiction rushing over me
When will I break free?Danger dangerous
 What will become of us?
 Strained addiction rushing over me
When will I break free?You're like a drug, I can't give up
 I want you way too much
 I keep on keep on keep on
Coming back to youDanger dangerous
 What will become of us?
 Strained addiction rushing over me
 When will I break free?
