Philosopher

Iris Temple

Wait.
Would you tell me what you think
About the concept of a dream(yeah)
Could you tell me what it means? Oh oh. I gotta know.
Hey.
Would you sit a while with me? Ya
We can sit in conversation and create the constellations please
Don't just keep me waiting, keep me faded.
Teach me something, can't just leave me here alone.
Would you teach me how to read?
I think there's something in the air. Ya
It seems it's carried by the breeeze
Can you teach me something?
Can you teach me some,
Can you teach me something?
(Can you teach me something.)
