Hellbent

Gamma Ray

merciless tempest
A flash underground
Sky ripped to pieces
The flames all around
Revolts on the sidewalks
Screams in the dark
The worlds sinks in chaos
The world falls apart
I'm moving on with business
Like any other day
And nothing ever stops me
I've found my sanctuary
A place to face the lonely race
With madness all around
We've found away to get out of the game
Sharing the thing that we've found
Hellbent for metal
That's what we are
Hellbent for metal
Straight from the heart
Infernal destruction
I see the downfall
The eve of extinction
I don't care at all
The air that I breathe
Purified by the sound
The power within make my world go around
I really can't be bothered
Like any other day
'Cause I have got my music
I've found my sanctuary
A place to face the lonely race
With madness all around
We are the same, we're not playing the game
Together we're screaming out loud
Hellbent for metal
That's what we are
Hellbent for metal
Straight from the heart

Hellbent for metal
Hellbent
Hellbent for metal
Hellbent
With all my love
Down to the core
A metal heart
I'm living for
A place to face the lonely race
With madness all around
We are the same, we're not playing the game
Together we're screaming out loud
Hellbent for metal
That's what we are
Hellbent for metal
Straight from the heart
Hellbent for metal
That's what we are
Hellbent for metal
Straight from the heart
