

# Siamese Twins (The Monkey and Me)

## The Knack

He's on my back. He's on my back. He's on my back.  
He's on my back. He's on my back. He's on my back. Please cut me free  
He's making me strange  
The monkey and me  
Sits on my back. Shits on my back. Piss on my back.  
Sits on my back. Shits on my back. Piss on my back. Kill it for me  
It's time for a change  
The monkey and me  
Starlight, starbright, first star tonight  
Wish my brother was no longer Cut deep, do it right away  
Cut clean, make a getaway  
Leave it out on the highway Kill it for me  
It's time for a change  
The monkey and me Starlight, starbright, first star tonight  
Wish my brother was no longer Cut deep, do it right away  
Cut clean, make a getaway  
Leave it out on the highway He's on my back. He's on my back. He's on my back.  
He's on my back. He's on my back. He's on my back. Please cut me free  
He's making me strange  
The monkey and me  
The monkey and me  
The monkey and me  
The monkey and me
