

# Time Of Our Lives

[James Blunt](#)

Don't close your eyes, dear, don't you be nervous  
You put this whole damn place in despair  
I see your friends here, and some of them jealous  
Cause they know this love don't come off the shelf  
I saw your mother, she looks so beautiful  
'Member when she didn't think I would stay?  
But all of those late nights, broke-as-hell dinners  
Led us to where we're standing today  
I'm feeling time moves slow  
I'm seeing faces glow  
None of them shine as bright as you tonight  
I'm hearing voices hush  
There's no one else but us  
Darling there's so much love under these lights  
If it's okay let's just have the time of our lives  
I saw your father, he wouldn't talk to me  
Til he could tell I was here to stay  
But all of those awkward short conversations  
Led us to where we're standing today  
I'm feeling time moves slow  
I'm seeing faces glow  
None of them shine as bright as you tonight  
I'm hearing voices hush  
There's no one else but us  
Darling there's so much love under these lights  
If it's okay let's just have the time of our lives  
Time of our lives  
Time of our lives  
I'm feeling time moves slow  
I'm seeing faces glow  
None of them shine as bright as you tonight  
I'm hearing voices hush  
There's no one else but us  
It's okay, let's just have the time...Let's just have the time of our lives
