

# Save Me a Spark

## Sleeping with Sirens

Whoa I want to paint down my memories  
So I don't forget  
Can we do this when it's cold outside?  
Can we live with no regrets?  
So many people get caught up in everything they see  
You can always trust what you believe Sometimes I feel stuck  
Sometimes I get lost in so much hope I'm drowning Would you save me a spark? (Oh-Whoa)  
We'll start a fire that shines a light in the dark  
Strike a match  
Make it last  
We are all we need (Whoa)  
Would you save me a spark?  
We'll light up the dark  
We'll light up the dark I wanna crash like a tidal wave  
Sinking to the ocean floor  
I want to stand in a crowded room  
Screaming the voice they can't ignore  
While everyone is sleeping  
I am wide awake  
'Cause hearts are only open when they break Sometimes I feel stuck  
Sometimes I get lost in so much hope I'm drowning Would you save me a spark? (Oh-Whoa)  
We'll start a fire that shines a light in the dark  
Strike a match  
Make it last  
We are all we need (Whoa)  
Would you save me a spark?  
We'll light up the dark Let me see you light up the dark (Whoa)  
I want to see you light up the dark (Whoa)  
I wanna see you light up the dark  
While everyone is sleeping  
We'll be wide awake (we'll be wide awake) Would you save me a spark? (Oh-Whoa)  
We'll start a fire that shines a light in the dark  
Strike a match  
Make it last  
We are all we need (Whoa)  
Would you save me a spark?  
I want to paint down my memories  
So I don't forget  
Can we do this when it's cold outside?

Can we live with no regrets?  
Strike a match  
Make it last  
'Cause we are all we need (Whoa)  
Would you save me a spark?  
We'll light up the dark  
We'll light up the dark  
We'll light up the dark
