Whatever Breaks My Heart

Graham Colton

Whatever Breaks My Heart

Whatever breaks my heart
All that you can?t say you seem to find a way
Whatever makes me cry
Everything you so takes a piece of me with you

Round and round you?re spinning me
Won?t the sound just let me be

The radio is killing me singing all my memories
Why did we say goodbye?
Why did we say goodbye?
(repeat)

Whatever breaks my heart
All that you can say you seem to find a way
Whatever makes me cry
Everything you do takes a part of me with you

Round and round you?re spinning me
Kill the sound just let me be

The radio is killing me singing all my memories
Why did we say goodbye?
Why did we say goodbye?
The radio won?t let me be
It?s playing all our melodies
Why did we say goodbye?
Why did we say goodbye?

The radio is killing me singing all my memories
Why did we say goodbye?
Why did we say goodbye?
(repeat)

The radio won?t let me be
It?s playing all our melodies
Why did we say goodbye?

Why did we say goodbye?

Why did we say goodbye?
Why did we say goodbye?
