

Numb

Slapshock

I tried to lose myself today
and hope this pain will go away
A thousand days. I tried to waste
I feel the same but you, re still okay

choros:

I feel you. You don,t feel me
I see you. You don,t see me

Duck. Duck
As we stand back to back
I see you disappear in my eyes
it fades to black

I wanna let it out
When i,m back on the track
causing you to move bringing you a heart attack
And i feel the pain like a needle in my vein now

Hurt myself cause you think
I didn,t know how
To cut myself and watch me bleed
I turn around as i watch you leave

ref:

Don't take away your eyes
cause i know you're beside me
But i just cant hold and see
i wish i'm numb inside
cause i dont want this feeling
This feeling that i cant hide

I tried to crawl inside of you and make you feel
those things you do
I turn away to watch you drown
im still right here trying to hear the sound

repeat choros:

I feel you. You don,t feel me

I see you. You don,t see me

Duck. Duck

As we stand back to back
I see you disappear in my eyes
it fades to black

I wanna let it out
When i,m back on the track
causing you to move bringing you a heart attack
And i feel the pain like a needle in my vein now

Hurt myself cause you think
I didn,t know how
To cut myself and watch me bleed
I turn around as i watch you leave

Don't take away your eyes
cause i know you're beside me
But i just cant hold and see
i wish i'm numb inside
cause i dont want this feeling
This feeling that i cant hide
