

100 Million Miles

Monster Magnet

Ice girl, she's waiting for me
On the second moon
If I can blast this crazy loop
I'm gonna be there soon Did you hear your mother
Threw another sucker to the sun?
He looks a lot like the
Good old boys of Apollo One Mama, Mama, tell me
I ain't gonna die
Well, maybe baby
Say you found the astro glide Hey, there ain't no pay, yeah
100 million miles away
Hey, there ain't no pay, yeah, yeah
100 million miles away Mad God took my girl
And made time stand still
I used to hate that stony freak
And now I always will But dead planets ain't no fun
I'm coming in way off time
That constellation looks
Just like my baby's sweet behind Mama, Mama, tell me
I ain't gonna die
Well, maybe, baby
Say you found the astro glide Hey, there ain't no pay, yeah
100 million miles away
Hey, there ain't no pay, oh no
100 million miles away
Hey, there ain't no pay, oh no
100 million miles away Hey, there ain't no pay, no
100 million miles away
Hey, there ain't no pay, no, no
100 million miles away
