

Dropping Out Of Love

Cheri Dennis

[Verse 1]

I've been tryna figure out
What the fight is all about
I'm tired of playin' like we're in love again
I guess we should've thought it out
Cuz now theirs way too many doubts
Can't be going through this again (no no no no)I can't imagine what I've
Done to you to make me feel
This way baby
I don't understand
Ain't nobody keepin' score
And it ain't about right or wrong
Who cares if you win the argument[Chorus]
I'm dropping out of love
I didn't sign up for this pain
So I'm out of love
I can't take feeling this way
Dropping out of love
I think it's best you go your way
Cause I've had enough of this hurting baby[Verse 2]
Lately you've been buggin' out
All types of madness out your mouth
You think it's funny, well sweetie think again
I wanna see how hard you laugh
You turn around and I'm not there
No apologies, no baby please not againI can't imagine what I've
Done to you to make me feel
This way baby
I don't understand
Ain't nobody keepin' score
And it ain't about right or wrong
Who cares if you win the argument[Chorus][Bridge]
So tired of waking to lonely tears again
If you don't see a problem then how can you make it in
You don't really give a damn so why does this happen
Goodbye, baby Goodbye[Chorus x2]
