Kingsnake

Mark Olson

Some highways are built on old paths
Some are built where they never should be
We have hope for restoration
We have our humanityMy eyes see you each day I'm side by side
Milk and honey that flows from withinFill your heart fill your heart with peace
Our sister will knock at the door
These sidewalks a gift to friendship
A place most people won't goMy eyes will always see you
My tears will fall no more
My heart sees you each day I'm side by side
Milk and honey that flows from within
