

Wasted Youth

The Movement

All the crap all the lies that they telling you
And all the things that you don't really wanna do
You're pushed in to it man you wanna quitLoneliness' don't really mean a thing
We leaned to live with it we got it under our skin
If that's the way then you never winAnd all my wasted youth
Emotionally crippled under the laws of hypocrite's
They proved it all by giving us nothingThat doesn't make it right
That doesn't make it fucking rightBut then again we got a government
I'm not ashamed to say its not another friend
That is away of oppression youAll the crap all the lies that they telling you
And all the things that you don't really wanna do
You're pushed in to it man you wanna quitAnd all my wasted youth
Emotionally crippled under the laws of hypocrite's
They proved it all by giving us nothingThat doesn't make it right
That doesn't make it fucking right
Lack of morality police brutality
Aggression pointed at our youth
