

Could You Believe

ATB

yeah

Disarm, fallout

Yea there's something that knowing and knowing something's what it's all about

So come on, stand out

Cause running and running is turning something into knowing, lookout
Could you believe, you believe (Don't stop looking, yeah)

Could you believe, you believe (Don't stop, yeah)

Could you believe, you believe (Don't stop looking, yeah)

Could you believe, you believe (Don't stop, yeah) Just around the corner everything is shining gold

A new kind of soldier looking for a lot of soul

Oh yeah Just around the corner everything is shining gold

A new kind of soldier looking for a lot of soul

Oh yeah This time, your life

Fractions and seconds make eternity in just one night

So come on, stand out

Cause running and running is turning something into nothing, no doubt
Could you believe, you believe (Don't stop looking, yeah)

Could you believe, you believe (Don't stop, oh yeah)

Could you believe, you believe (Don't stop looking, yeah)

Could you believe, you believe (Don't stop, oh yeah) Just around the corner everything is shining gold

A new kind of soldier looking for a lot of soul

Oh yeah Just around the corner everything is shining gold

A new kind of soldier looking for a lot of soul

Oh yeah Could you believe, you believe (Don't stop looking, yeah)

Could you believe, you believe (Don't stop, oh yeah)

Could you believe, you believe (Don't stop looking, yeah)

Could you believe, you believe (Don't stop, oh yeah) Don't stop looking, yeah

Don't stop, yeah

Don't stop looking, yeah

Don't stop, yeah
