The Domino Decree

Iced Earth

'Cause, this is the creed that brings effect
That of which of mankind's besieged
By our plans devised infect
Kings and empires rise and fallBy the Rose and our decree
Of the elder's prophecy
That rids us of the human threat
And frees the hand of destinyFate by our dominion
In their sovereign states
Fall like domino's
Framing mankind's fateKill, assassinate the ones that lead
By their example we deceive
With religions we create
Martyrs, saviors and their slavesTo a sad sadistic need
To crucify a puppet king
Of a selfish vile race
That's filled to the core by greedFate by our dominion
In their sovereign states
Fall like domino's
Framing mankind's fateDivide mankind
Destroy their kind
Fear will make us free
Cast doubt through historyDivide, divide, divide, divideFate by our dominion
In their sovereign states
Fall like domino's
Framing mankind's fateFate by our dominion
In their sovereign states
Fall like domino's
Framing mankind's fate
