Negative Energy

Takura

my daddy died, we got so broke,
went to south Africa when I was 14 years old,
had to take care of my mum, life got so cold,
but I had to be a man,it wan no joke no no,

would you believe if I told you that my first job was a garden boy,
would you believe if I told you every time yandakajamba border,
ndakafamba 100 kilometres,
messina kusvika Louis Trichardt
vaya vaya vanoenda kujoburg they would know exactly wat I mean,
kwaipisa,summer season,
three straight days ndisingafeede,
but on the thought of my five sisters ,
and my mama, gave me reason
man I just wanted a better life,ndakambogayawo suicide,
but I didn't want to break mamas heart.,
instead I had to be strong

hook

kunyangwe ndiri ani,
hupenyu hune nharo
ndikakundikana zvandibata I just feel like giving up,
but iv come a long way to,
and you've come a long way too
whenever you feel like giving up, I just want you to sing this song,

negative energy getaway(repeat 5)
you only come this far, to only come this far

it took me months before I made my first call,
you have no idea how it felt like to hear my mamas voice,
mhoroi mama,
she said ndakusuwa mwanangu,if only we had a choice,
you wouldn't be where you are, you would be here with me now,

hook

would you believe if I told you ndakabirwa phone and I got stabbed,
would you believe if I told you I was never home for like 8years,
so before you think of giving up.,
just know that you're not the only one,
and if its not going to kill you,
trust me its only gon make you strong

back to bridge then chorus
