## Brutal Truth

(Brutal Truth)
Hated... time and time again
Force fed, suppress senseless fear of difference
True self suppression, hollow dreams of misery
Blind wish to see
Indifference to be
Freedom, expressionless bouts of legislation
True self repression, take a stance of fall to your needs
Corrupt in the system
Laws bent to other needs
God fearing idiocy
Ignore just pleas
Blind wish to see
Indifference to be
Concrete hypocrisy
Weigh heavily
Idiosyncrasy
Ruling powers be
Idiosyncrasy
Never really free
