

Proper Music

Future of the Left

how many farmers markets does it take to change a lightbulb?
(and will it reflect us?)
how many christmases must we by in synthesis?
(and are damaged nations lush?)
what is the weight-loss secret of top cuban athletes?
(stella and coffee)
i'm a puritan maid and my puritan mind says his pure is
his pure is his pure is his pure cannot be
the proper music aboundshow many great achievements did it take to make you so smug?
(i'm genuinely interested)
and how many christian girls are enough to make it burn?
(is the answer not a joy?)
who is a friend to princes if not your bloody father?
(maybe his brother)
i'm a generous man and my generous mind says his pure is
his pure is his pure is his pure cannot be
the proper music abounds
