

# Sing A Song Of Freedom

## The Bells

As I look around me  
I see the world in a different light  
Everything is changing  
And it happened one night Changing for the better  
And it starts with you and me  
So well sing our song together and forever  
We'll be free Sing a song of freedom  
People together, everybody sing  
Sing a song of freedom each and everyone  
People come together all across the land If you're looking for an answer  
It's very close in hand  
Just take a look around you  
And then you'll understand Clap your hands together  
And let me hear the sound  
It's the time for liberation  
So pass the world around
