Reality

[702](#)

You don't know what we go through
So I'm singin' this song for youAin't got no time to play around
It ain't about just hangin' out
I got so much more to do
It ain't worth bein' with youSome people think they wanna live this life
They see the fame but they don't know the price
It ain't that easy, I need you to feel me
Reality's of a starI'm staying focused on myself, hey
Ain't gotta please nobody else, uh
Got to do what's best for me
That's the way it has to be, babySome people think they wanna live this life
They see the fame but they don't know the price
It ain't that easy, I need you to feel me
Reality's of a starYou don't know what we go through
So I'm singin' this song for youSome people think they wanna live this life
They see the fame but they don't know the price
It ain't that easy, I need you to feel me
Reality's of a starMore than west travellin'
Go to school, I got my friends
And family had a crave, it'll be okay
Photo shoots, make up, video
Is the truth, mostly missin' your men
