

# What Do You Want

## Avant

Yo, guess who's back, AV  
Yo, Stizzle, give 'em what they want  
Yeah, give 'em what they want Come on baby, tell me what you want from me?  
I can see the way you checkin' me  
Don't be scared, baby, step to me  
And let me know what you want from me I love the freaky way that you move your body  
The way you move, baby girl, don't stop it  
DJ, keep the dance floor hoppin' so I can see  
Just what you want from me What do you want from me?  
Now baby, shake for me  
Yes I want to see, bring out the freak in me Shake it for me on the dance floor  
Shake it, baby, let's get down  
Wanna see your body move for me  
I wanna see your body move for me  
So baby, shake for me My clique blowin' up the VIP  
Pourin' Cris like it's New Year's Eve  
Ain't no need for them to check for me  
'Cuz I'm exactly where I wanna be Now do that hang wit cha hips then drop it  
To all the haters in the club, just stop it  
'Cuz tonight ain't go be no blockin'  
I'm goin' to give her everything her body wants from me Everybody came with me is paid  
And ain't no mommies in here, were tryin' to save  
But the way that you movin', got me in a daze  
So you go be leavin' in the Escalade, tell me What do you want from me?  
Now baby, shake for me  
Yes I wanna see  
Bring out the freak in me Shake it for me on the dance floor  
Shake it, baby, let's get down  
Wanna see your body move for me  
I wanna see your body move for me so baby, shake for me And it goes like a chick with a cost, she take whatever  
Body look tougher in her jeans but greater in leather  
Get dressed, chose more whips than chasing the weather  
So when it's hot top down, stone beats forever Baby, tell me what you want for me?  
Poppin' bottles of Crisi, rollin' off ecstasy  
My clique is growin' up VI  
And when you next to me, the world is yours  
My city on lock so here's the key Keep it movin', haters faces tattooed  
In a colorful Gators with players  
Throw your hands up if you gettin' that paper

It's major, chickens blowin' up my cell and my pager  
Tellin' me come to the club, got AV and the Gator  
Holla later, we outWhat do you want from me?  
Now baby, shake for me  
Yes, I wanna see  
Bring out the freak in meShake it for me on the dance floor  
Shake it, baby, let's get down  
Wanna see your body move for me  
I wanna see your body shake for meWhat do you want from me?  
Now baby, shake for me  
Yes, I wanna see  
Bring out the freak in meShake it for me on the dance floor  
Shake it, baby, let's get down  
Wanna see your body move for me  
Just shake, just shake, just shake for meIf your from the West, where you shake it at?  
If your from the East where you shake it at?  
If your from the North where you shake it at?  
If your from the Dirty Dirty, where you shake it at?And if you Pop Cris, where you shake it at?  
And if you push whips, where you shake it at?  
And if you rock ice, where you shake it at?  
Tell me now, tell me, where you shake it at?It ain't easy, man, it might look like glamor life to you  
'Cuz you see me ridin', rings on pinkies you digg  
Watches on arms you digg, chains around neck you digg  
But if you want to get to this static, you gone have to work, baby  
I see you at the top, holla
