Second Sight

Lush

Peel back empty night
Grey dawn breaks into white
Sun climbing the sky
Your eyes reflecting the lightClouds out of sight
But when the day is through
Will I see you again?Keep your eyes on me
Don't let go of my hand
Running together
We go together, so well
I can tellRun where I run, play what I play
Do what I do
But when this day's through
Will I see you again on the moon?
