

Country Lane

Telekinesis

I wanna live on a country lane
some place where no
one knows your name
I'll forget you too (x2) I wanna sleep in late
I wanna start from the top
clean my slate
and I forget you too (x2) I believe in fate
I believe my brain can compensate
I believe it's true (x2) Why can't I relate
I'm too street ????
?????
it's something I can't do (x2) well I believed in you
and you believed in me
and i know this just happened It happened (x3) and I believed in you
and you believed in me
and i know this just happened It happened (x6)
