My Song

Betchadupa

Your head might be clear
but tday my melody will stay
Close to the shore where we drive
I honour you with song
My song, I wrote it in days
But it's gonna stay forever, and everWhere are we now, for a day
The clouds are running out of rain
Its often late and often long
but I will wait for you for nowMy song, I wrote it in days
but its gonna stay forever, and ever, and ever
Its often late and often long
but I will wait for you for now
My song, I wrote it in days
but its gonna stay forever
I wrote it in days
but its gonna stay forever, and ever, and ever
