Lola Leave Your Light On

Gov't Mule

Don't make me beg, well, maybe just a little
Please don't make me crawl
What you got, baby, is killing me
It's making me ten feet tallMy southern pride is all in a tizzy
Weak in my knees
My head is spinning, I'm feeling kind of dizzy
I guess I'm begging, pleaseLola leave your light on
I said, "Lola, leave your red light on"
Lola leave your light on
I said, "Lola, leave your red light on"Don't tease me, well, maybe just a little
Don't tantalize my heart
It's hard to know where the torture ends
And where the pleasure startsI can taste the pain, I can feel the fire
Seep into my soul
Mother Mary, I said, "Please forgive me
I'm about to lose control"Lola leave your light on
I said, "Lola, leave your red light on"
Lola leave your light on
I said, "Lola, leave your red light on"Smooth operator, playing a little bit rough
How'd you know I like it that way
We can come together if I call your bluff
Wash our sins awayShadows dancing on your bedroom wall
A caution to the wind
Wolves are howling outside your door
Oh, you better let them inLola leave your light on
I said, "Lola, leave your red light on"
Lola leave your light on
I said, "Lola, leave your red light on"I said, "Lola leave your light on"
I said, "Lola, leave your red light on"
Lola leave your light on
I said, "Lola, leave your red light on"
