

# Slippin (feat. Denaun Porter)

Lil' Kim

Now don't you know that they want to catch you  
Slippin' with no protection, lead you in the wrong direction  
Every nigga around you is a reflection  
Of you, when you were at your lowest point in your life, darlin'Niggaz wanna catch you slippin'  
(Don't let 'em catch you slippin', slippin', slippin', slippin')  
They wanna catch you slippin'No more Mrs. Nice Bitch  
Niggaz done, flipped the script and got on some shiest shit  
Sellin' they soul when love is priceless  
They kicked me when I was down and stuck in a crisisI kept it all in and now I'm 'bout to erupt  
Man, fuck the law, the whole system's corrupt  
A street grudge put me in front of the judge  
But I stood there like, "What, the Bee don't budge"It's a foul game, no such thing as fair play  
And real niggaz get railroaded everyday  
Words misconstrued and used against you  
Then you get screwed when it's time to sentence youWorld cavin' in, it's a shitty situation  
A year and a day, three years probation  
Public humiliation, poor representation  
Guilty by associationNow don't you know that they want to catch you  
Slippin' with no protection, lead you in the wrong direction  
Every nigga around you is a reflection  
Of you, when you were at your lowest point in your life, darlin'Niggaz wanna catch you slippin'  
(Don't let 'em catch you slippin', slippin', slippin', slippin')  
They wanna catch you slippin'I'ma stand up type, grew up in the projects  
And that's worth more than material objects  
A lot of things come when they know you got it  
You, a target and now they tryin' to get in the pocketsLawsuits, lawyers prosecute for profit  
Meanwhile the media promotin' the gossip  
I had to say it 'cause I'm that real with it  
Shinin' like a star, then you gotta deal with itAnd dudes quick to take these groupies to bed  
Better watch it 'fore they write a book about you like Superhead  
Fuck 'em and leave 'em, then they after your paper  
Put a hole in the condom and say that you raped herSo you could be a rapper, athlete or a actor  
Believe me, these devils find a way to get at'cha  
All it takes is some green and your face on the screen  
Fuck it, just say I took one for the teamNow don't you know that they want to catch you  
Slippin' with no protection, lead you in the wrong direction  
Every nigga around you is a reflection  
Of you, when you were at your lowest point in your life, darlin'Niggaz wanna catch you slippin'  
(Don't let 'em catch you slippin', slippin', slippin', slippin')

They wanna catch you slippin' In these streets, you gotta sleep with one eye open  
(Slippin', slippin', slippin', slippin')  
And watch for the snakes and the Jakes approachin'  
'Cause it could be the ones that you laugh and joke with  
The ones you smoke with, sold your coke with I set you up for the right piece of change  
And have your brains on the dashboard out the Range  
Too often, I seen a nigga layin' in the coffin  
All 'cause some shit was blown out of proportion Everywhere you go, you gotta move with caution  
'Cause the rap game ain't much different than the crack game  
It's the new hustle, gotta have brains and muscle  
Get too much money and these haters wanna touch you Now I can see why they all on me  
Niggaz do dirty work, the shit fall on me  
Not only do you gotta watch the boys in blue  
But the niggaz in your crew, you gotta watch them too Now don't you know that they want to catch you  
Slippin' with no protection, lead you in the wrong direction  
Every nigga around you is a reflection  
Of you, when you were at your lowest point in your life, darlin' Niggaz wanna catch you slippin'  
(Don't let 'em catch you slippin', slippin', slippin', slippin')  
They wanna catch you slippin'  
(Slippin', slippin', slippin') Slippin'  
Slippin'  
Slippin'  
...
