

# Reveal

## the generic tribe

Everything here, close to me  
Is just the way I want it to be  
It's all about faith, it's all about trust  
All about luck, not about lust  
My wish comes true  
My wish comes true I don't mind showing for you  
I reveal everything for you  
Just about anything Could it be night, could it be day  
Floating in space I was drifting away  
You're making me warm, you're making me high  
I feel like laughing where I used to cry  
My wish comes true  
My dream comes true I don't mind showing for you  
I reveal everything for you  
Just about anything for you  
I reveal everything for you  
Just about anything I don't mind showing for you  
I reveal everything for you  
Just about anything for you  
I reveal everything for you  
Just about anything for you  
Everything for you  
Anything for you
