Exile

Hurts

Home, it's where the heart is
So just let me breathe again
Make me young again
And we'll go where we are free again
This is not the end
We'll be young again

So we'll say goodbye girl
And watch as the world burns
This is exile
We're in exile

So just let the heads roll
And we'll stand on this world alone
In this exile
We're in exile

Exile, exile, exile?

Home, it's where the heart is

Where we'll never leave again
Suffer or bleed again
When we go
The vultures will feed on them
And fire will come around
And we'll be young again

So we'll say goodbye girl
And watch as the world burns
This is exile
We're in exile

So just let the heads roll
And we'll stand on this world alone
In this exile
We're in exile

We're in exile?
We're in exile?

Watch as the world burns
