

Image Change

Elastica

Should the image change
Would the rest look better
Surface dissolved skin and bone
Revealing all your floss It might be better if I left you now
Talk for hours
First impressions last
And cast shadows on the rest Should the image change
Would the rest look better
It does explain a second chance
I keep it all inside It might be better if I left you now
Talk for hours
But it doesn't change
This feeling won't go away
