Up Against Me

LP

I wanted more, it went away
I asked the Lord, she said: "Maybe"
I wanna take us all away
Don't ever change, okay?Don't believe the government or anything you read
Nothing really matters when you're up against me, uhThey didn't tell us what we're up against
I just want you up against me
Never didn't tell us what we're up against
I just want you up against meI just want you up against me
Up against meA turning wall inside your head
That chips away and wants you dead
It's all about what Lennon said
Let's change the world from bed
Don't believe a government or anything you read
'Cause nothing really matters when you're up against me, uhThey didn't tell us what we're up against
I just want you up against me
Never didn't tell us what we're up against
I just want you up against meI just want you up against me
Up against meThey don't know our kind of love
Just come on over, my love
They don't know our kind of love
Just come on overThey didn't tell us what we're up against
I just want you up against me
Never didn't tell us what we're up against
I just want you up against me
They didn't tell us what we're up against
I just want you up against me
Never didn't tell us what we're up against
I just want you up against meI just want you up against me
Up against me
