

# No Man's Woman

Sinead O'Connor

I don't wanna be no man's woman  
It don't make me happy this mantrolling  
Thing that you got for me so I become  
No man's woman I don't wanna be no man's woman  
I've other work I want to get done  
I haven't traveled this far to become  
No man's woman  
No man's woman 'Cause I'm tired of it  
And I'm not scared of it  
That I'll never trust again  
'Cause a man could fake you  
Take your soul and make you  
Miserable in so much pain My friends think I'm alone but I've got secrets  
I don't tell everything about the love I get  
I got a lovin man but he's a spirit He never does me harm never treats me bad  
He never takes away all the love he has  
And I forgive him a million times I'm never tired of it  
And I'm not scared of it  
'Cause it doesn't cause me pain  
Like a man could fake you  
Take your soul and make you  
Never be yourself again I never wanna be no man's woman  
I only wanna be my own woman  
I haven't traveled this far to become  
No man's woman  
No man's woman  
No man's woman
