

Spaceship (feat. Jackie Vegas)

The Code

Verse 1 :Babe, I wanna know
That you`ll still be there when i`ll be coming home
`Cause i can`t take this anymore
I want to taste you`re lips just like i did before
Bridge : I feel alive whenever you are dancing slow
The way you move it always keeps me on the floor
And everytime i see you i just lose control
The way you touch me baby keeps me wanting more
`Cause i`ve always loved you so x2
Hook: Forever ..Can you ride a spaceship with me?
And we will see the stars
I`ll provide everything that you need
My only one x2
Verse 2 : Darling,don`t need to go
If you`ll take my hand you`ll never be alone
My only pray, my commet stone
You will never have to walk this world alone
Bridge :I feel alive whenever you are dancing slow
The way you move it always keeps me on the floor
And everytime i see you i just lose control
The way you touch me baby keeps me wanting more
`Cause i`ve always loved you so x2
Hook:Forever ..Can you ride a spaceship with me?
And we will see the stars
I`ll provide everything that you need
My only one x2
