

# Like Snow

## Tinpan Orange

Like snow  
Like everything I feel  
The world keeps turningMy hands  
My hands are all I see  
No path under my feetI'm falling  
I'm fallingOne light  
One light in all this time  
The world keeps turning  
I try  
I try my best to see  
And it follows meIt's calling  
It's callingLike snow  
Like everything I feel  
The world keeps turningMy hands  
My hands are all I see  
No path under my feetI'm falling  
I'm falling
