

Sugar Tree

Simplified

It all started with a "what's your name",
come to find we felt the same
we were dancing in the dark
and the rain came down, but we did not stop, and

we had our problems,
always seemed to solve them
even when I was down,
you were always around, and

you mean...all the world to me, yeah

it was almost paradise,
x's and o'x and wild nights
you were really into me,
shakin' your sugar tree

I was a "you" fiend
we found our routine
you worked your 9 to 5
I worked at night, but we still made time, and

lotta dinners on the bedroom floor
so much we can't afford
I got you and you got me
that's a whole lot for this big ole world

and, you mean..all the world to me
go on girl, now, now do it again
said you mean, all the world to me
a come on, a come on, a come on

said you mean, all the world to me
go on girl, now, now do it again
said you mean, all the world to me yeah

all the world,
all the world,

all the world
all the world, you mean
all the world
all the world to me, yeah
