

# I Need Somebody

**Bryan Adams**

Don't need anybody messin with you  
I want you just the way you are  
Don't want anything that you can give me  
Keep your money and your car  
You bring me your joy  
And your love it makes me sing  
It's got me going  
It feels like a dream  
(Feels like a dream)  
My heart is on fire and filled with such desire  
Now I promise to be where you are  
I need somebody  
I want a lover and a good love too  
I want somebody that
