Heartache Every Moment

Him

From lashes to ashes and from lust to dust
In your sweetest torment, I'm lost
And no Heaven can help us
Ready, willing and able to lose it all
For a kiss so fatal and so warm
Oh, it's heartache every moment
From the start till the end
It's heartache every moment
With you
Deeper into our Heavenly suffering
Our fragile souls are falling
It's heartache every moment
Baby with you
And we sense the danger
But don't wanna give up
There's no smile of an angel
Without the wrath of God
Oh, it's heartache every moment
From the start till the end
It's heartache every moment
With you
Deeper into our Heavenly suffering
Our fragile souls are falling
It's heartache every moment
Baby with you, my darling with you
From lashes to ashes and from lust to dust
In your sweetest torment, I'm lost
And we sense the danger
But don't wanna give up
Oh, it's heartache every moment
From the start till the end
It's heartache every moment
With you
Deeper into our Heavenly suffering
Our fragile souls are falling
It's heartache every moment
Baby with you, that's right
