

# Jetstream

## Doves

Tall machines wait in line  
So still lost in time  
Jets turn and make no sound  
Returning to the solid ground  
People drift out of time  
Watching numbers turn  
Seems that I've been waiting here forever  
Jetstream, stormy seas  
Cast adrift on a troubled dream  
I've seen the sleeping ships at night  
I will meet you there  
The roar of the engine in the air  
(Jetstream)  
Leave the things you don't need  
And the ones that you don't love  
Faith and hope keeps our minds together  
Your heart's left the ground tonight  
Scattered lost in light  
Seems that I've been waiting here forever  
Jetstream, carbon seas  
Cast adrift on a troubled dream  
I've seen the silent jets at night  
I will meet you there  
The roar of the engine high in the air  
(Jetstream)  
Sleeping ships in the night  
Shining steel lost in time  
Jets turn make no sound  
Returning to the safer ground  
People running outta time  
Lost in love last in line  
Seems I've waited here forever  
Jetstream, stormy seas  
Cast adrift on a troubled dream  
I see the silent jets at night  
I will take you there  
The roar of the engine pollutes the air  
Jetstream, jetstream, jetstream
